| 1864..... | Rev. J. H. NASH, Sunbeam..... | 1867 |

The Trustees are so arranged that one-third of their number go out of office, each successive year, at the time of the regular annual meeting of the U. P. Synod of Illinois; and as such vacancies occur they are filled, three-fourths of the number by the Synod, and the remaining one-fourth by the Trustees themselves.

Officers of the Board.

HON. I. QUINBY,
President.

J. J. GLENN, ESQ.,
Secretary.

THOMAS JOHNSTON, ESQ.,
Treasurer.

—

Terms of Admission.

Candidates for admission to the Collegiate Department must furnish satisfactory evidence, by examination, of their proficiency in the studies of the Academical Department. They will be particularly examined in **READING, SPELLING and PENMANSHIP.**

Candidates for advanced standing must furnish satisfactory evidence of proficiency in all the previous studies of the course they propose to take.

No student of known immoral character, or whose influence is likely to be injurious to good order, will be admitted.

| Brown's Greek Lit. | Guizot's Hist. of Civ. | |
| History of English Lit. | Miller's Schools and School Masters. | |
| Edwards on the Affections. | Edwards on the Will. | |

The above Course of Reading is recommended to students of the Classical Course. Students of the Scientific and Select Courses may make selections from it.

The above Courses of Instruction include the following subjects:

1. THE LATIN LANGUAGE AND LITERATURE.

The studies of this department include the translation of selections from the Classic Latin Historians, Orators, and Poets, accompanied by progressive exercises in Analysis and Composition, and a course of reading in the History, Literature and Antiquities of Rome. The subjects of recitation are the following: Selections from Cæsar, Virgil, Cicero's Orations, Livy, Horace, Tacitus' Germania and Agricola, and Cicero De Oratore, accompanied by such exercises in Latin Prose Composition as the Pro-

essor may direct. Students of the Scientific Course are required to read no farther than through Virgil.

Bullion's Grammar, Cesar and Cicero, Cooper's Virgil, Lincoln's Livy, Zumpt's Horace, and Dillaway's Tacitus and De Oratore, and Arnold's Prose Composition, are text books in this department.

2. THE GREEK LANGUAGE AND LITERATURE.

The studies of this department include the translations of selections from the Classic Greek Historians, Orators, Philosophers, Critics and Poets, accompanied by progressive exercises in Analysis and Composition, and a course of reading in the History, Literature and Antiquities of Greece. The subjects of recitation are the following: Selections from the *Anabasis* and *Cyropaedia* of Xenophon, the Histories of Herodotus and Thucydides, the *Orations* of Isocrates, Lysias and Demosthenes, the *Memorabilia* of Xenophon, the *Crito* and *Phaedon* of Plato, the Philosophical and Critical Works of Aristotle, the Critical Works of Dionysius Hali-carnasseus and Longinus, and the Tragedies of Sophocles or Euripides, accompanied by such exercises in Arnold's Greek Prose Composition as the Professor may direct. The prose selections read in this course are contained in the *Graeca Majora*, Vol. 1. Such editions of the Tragedies as the Professor may direct will be read.

3. THE HEBREW LANGUAGE.

The study of Hebrew will be commenced by the Seniors at the opening of the year and continued, with five recitations weekly, until the close of the Senior year. Such a knowledge of the language will be thus acquired as will enable the student to read intelligently the Hebrew Scriptures, and qualify him for reciting with advanced classes in any Theological Seminary. Wolf's Grammar and Chrestomathy, and the Hebrew Bible are used as text books.

4. FRENCH AND GERMAN LANGUAGES.

Scientific students may study French or German instead of Latin, and the students of the Classical course may study German or French instead of Hebrew. Any student is at liberty to take either language in addition to the subjects of the regular course. The following are the text books: **FRENCH**—Magill's Grammar, *Telemaque*, *L'Histoire de Charles XII*, Racine's Tragedies, and Bossuet's *Orations*. **GERMAN**—Woodbury's New Method, Woodbury's Elementary and Woodbury's Eclectic Readers, Schiller's *Thirty Years' War*, and Goethe's *Faust*.

5. THE ENGLISH LANGUAGE AND LITERATURE.

Exercises in composition are required regularly from the beginning to the end of all the courses. The formal study of the subjects included under this head begins at the opening of the College course and continues until the close of the second term of the Junior Year. Fowler's Treatise on the English Language, and March's Method of Philological Study of the English Language, and Day's Art of Rhetoric will be used as text books. The students are recommended to read carefully the History of English Literature, and to examine critically its great master-pieces. The recitations will be accompanied by lectures and frequent drill exercises. The members of every class are required to perform in a public exhibition once a year. By this method of instruction and drill, the Professor aims to familiarize the student with our native tongue and to train him to use it with facility, accuracy, elegance and power.

6. HISTORY.

The course of Historical Reading includes the History of Rome, Greece, France, England, and the United States, accompanied by the History of the Church and Guizot's History of Civilization. No recitations will be required in these subjects, but as far as the Faculty may judge expedient, each class will be examined in the prescribed text books, and every effort will be made to familiarize the student with the subjects of the course.

7. MATHEMATICS.

The Mathematical studies of both the Classical and Scientific Courses include the following subjects: Algebra; Geometry; Trigonometry, Plane and Spherical; Mensuration, Surveying, Navigation, Analytical Geometry and Calculus. The Select Course includes only Algebra, Geometry, Mensuration and Plane Trigonometry. These studies are pursued as follows:

I. CLASSICAL COURSE.—1. Sub-Freshman Class—Algebra. 2. Freshman Class—Geometry and Plane Trigonometry and Mensuration. 3. Sophomore Class—Spherical Trigonometry, Surveying, Navigation, Analytical Geometry and Calculus. One recitation daily.

II. SCIENTIFIC COURSE.—1. Sub-Junior Class—Algebra. 2. Junior Class—Geometry, and Plane Trigonometry and Mensuration. 3. Senior Class—Spherical Trigonometry, Surveying, Navigation, Analytical Geometry and Calculus. One recitation daily.

III. SELECT COURSE.—Algebra, Geometry, Plane Trigonometry and Mensuration.

Loomis's Mathematical works are used as text books.

8. NATURAL SCIENCE.

The course of Natural Science is indicated clearly in the scheme of studies. The recitations in this department will be supplemented with weekly lectures. The text books are Snell's Olmstead, Hitchcock's Physiology, Gray's Botany, Olmstead's Astronomy and Burritt's Geography of the Heavens, Youman's Chemistry and Dana's Geology.

The Select Course in Natural Science includes Natural Philosophy, Astronomy, Chemistry, Physiology and Botany. Text books suitable to the capacity of the student will be used.

The apparatus and cabinet in possession of the College enable the Professor of Natural Science to illustrate with a good degree of fullness the subjects of his department.

9. PHILOSOPHY.

The Juniors spend the second and third terms on Political Economy and the Constitution of the United States, one recitation daily. The Seniors study Mental Philosophy the first term, and Applied Logic, Moral Philosophy, Butler's Analogy and the Evidences of Christianity the remainder of the year. Hamilton's Metaphysics, Wayland's Moral Philosophy or McCosh's Method, and Wayland's Political Economy, Story on the Constitution, and Butler's Analogy are used as text books. The text books are supplemented by lectures and discussions.

In this department it is the aim of the Professor to develope the powers of the mind, and aid the student in forming correct principles on the various subjects of the course.

10. RELIGIOUS INSTRUCTION.

All the students are required to attend the worship of God daily, and to recite a Bible lesson weekly. Students of the Classical and Scientific courses will study select portions of the Old Testament and all the New. The Freshmen, Sophomores and Juniors will read and recite the Epistles and Revelations in Greek. In addition to the usual text books on Moral Philosophy, and the Analogy of Natural and Revealed Religion, the Seniors will take a brief course in Theology, using the "Confession of Faith" as a text book. This course will be especially valuable to those whose professional studies will not lead them to a careful examination of the facts and principles of the Word of God. A course of reading adapted to promote vital godliness is recommended to all the students. The President will give frequent lectures on manners, morals and religious duties, intended to train the students to the life of Christian ladies and gentlemen. All who do not reside with their parents are required to attend public worship and Bible class, in some church on the Sabbath. Students' prayer meetings have been organized; they are well attended. The Faculty regard it as an important part of their work to labor for the moral and spiritual welfare of the students.

The department of Music, under the charge of J. M. VAN DOREN, affords facilities for the study of that valuable art, seldom, if ever, found in an institution of this character.

Instruction will be given, to such as desire it, in the theory and practice of Teaching.

The degree of "A. B." is conferred on students who complete and pass satisfactory examinations in the Classical course.

The degree of "B. S." is conferred on students who complete and pass satisfactory examinations in the Scientific Course.

An appropriate certificate will be given to students who complete and pass satisfactory examinations in the Select Course.

Ladies and gentlemen are admitted, on the same footing, to all the courses.

Academical Department.

| Chemistry. | Physiology. | Astronomy. |
| Book Keeping (optional) | Book Keeping (optional). | Book Keeping (optional). |
| New Testament. | New Testament. | New Testament. |

The Academical Department was established for a two-fold purpose—to give needful preparation for more advanced studies, and to furnish a brief course for such as cannot take the Collegiate Course. It is conducted apart from the College, in a building of its own—the one formerly occupied by the Collegiate Department. This building, during the past year, has been entirely fitted up anew and refurnished, and its accommodations greatly enlarged and improved. There have been commenced, and will be more fully perfected during the next year, an enlargement and improvement of the course of study and the educational facilities of this Department. Students of the Academy are under the supervision of the President and Faculty of the College—they are responsible to College law, and have the same advantages as other students, of Scholarships, Libraries, Cabinet, Experiments and Lectures. The young gentlemen of the Academy have a Literary Society in successful operation. A weekly course of Lectures on habits of study, formation of character, and similar subjects is delivered in the Academy by the President of the College. The instruction and government of the students of the Academy are chiefly committed to a corps of Instructors specially appointed to the Academy.

THE PREPARATORY COURSE.

Students expecting to take the Classical or Scientific Course in the College, begin in the Academy their Mathematics, Latin and Modern Languages. It is aimed to make this instruction as thorough and complete as is given in any similar school, and at the same time to provide every means for young gentlemen and ladies to master the subjects belonging to a common school education, if these subjects have been neglected. The Preparatory Course can also be advantageously taken by those who wish to spend a brief time in the study of Latin, French or German, and even this short course in other languages will be found a great help in understanding the structure and grammar of our own.

THE ENGLISH COURSE.

This gives a full thorough training in English studies and in the elements of the Mathematical and Natural Sciences for such as cannot take the time to go fully over these subjects in the Collegiate Scientific Course. This course furnishes a full PRACTICAL BUSINESS EDUCATION. The Mathematics are pursued as far as they are ordinarily practically applied. A good English education, including the elements of the Natural Sciences, is eminently useful to those students who are most hurried in obtaining an education. Instruction in Penmanship, by a well qualified instructor, who makes that a specialty, is given without additional charge. A rare opportunity to study either an elementary

or an advanced course of Book-KEEPING is furnished in connection with "MONMOUTH MERCANTILE INSTITUTE." Those taking the English Course who do not wish to receive a commercial education, can omit Book-Keeping.

NORMAL STUDIES.

Classes will be formed, at extra charges, for the purpose of giving more advanced or more rapid instruction than the course affords, in any subjects that may be desired, to those wishing to teach or who are engaged in teaching. And with such recitations will be combined instruction in the Theory and Practice of Teaching.

ENGLISH EXERCISES.

Practical as well as theoretical acquaintance with our own language is specially required. The Department of English Language in the Academy will hereafter be in charge of an Instructor specially appointed thereto. None in any class can be excused from Reading and Spelling without an examination. A deficiency here has its effect, as much as in any study, in barring the advancement of students from any class to a higher. Exercises in Composition and Declamation are regularly required of all the classes. Frequent and regular drill exercises are given in forming, transposing and rendering sentences; correcting common errors; applying grammatical and rhetorical rules; writing from dictation; distinguishing, defining and contrasting words, phrases and modes of expression. The study of Rhetoric will also be combined with critical readings of choice extracts from the best authors.

PENMANSHIP.

Daily lessons in Business Writing are given to all classes, from which none are excused without examination. A "Course in Ornamental Writing," and a "Teachers' Course in Penmanship," can be taken at extra charges.

RELIGIOUS INSTRUCTION.

The same general requirements exist in respect to Religious Instruction as in the College. The Life of Christ, as narrated in the different Gospels, is studied by the Junior Class, and the Acts, together with historical and biographical items in the Epistles, by the other classes. Students should bring with them such helps as they can command for these studies.

Additional Information.

LIBRARY.

The Library contains over one thousand volumes, including five hundred dollars worth of new books, selected expressly for the College. It is accessible to all the students.

APPARATUS.

An extensive Philosophical and Chemical Apparatus has been procured and is now in successful use. It affords the means for a satisfactory illustration of the most important doctrines in the various departments of Astronomy, Natural Philosophy and Chemistry.

CABINET.

The College has purchased of James Barnett, D. D., Missionary at Cairo, Egypt, an Oriental Cabinet, the result of seventeen years labor in Palestine and Egypt, containing ancient coins, geological specimens from Sinai and regions about the Red Sea, and many articles of interest to students of Bible History. The College has also procured from the State a Geological Cabinet, consisting of Duplicate specimens from the State Geological Cabinet at Springfield, which has been arranged on appropriate cases, and furnishes the students an opportunity of studying the geological structure of our own State.

LITERARY SOCIETIES.

There are four Literary Societies in the College—the PHILADELPHIAN, ECCRITÉAN, AMATEURS DES BELLE LETTRES and ALETHIEORIAN—These are all on a good footing, and afford to their members respectively the opportunity of improvement in the branches of learning & the promotion of which they are established.

GOVERNMENT.

me. takes the aim of the Faculty to secure good order and diligence in Courses by the force of moral and religious principles, rather than by The Exercise of authority. Those who persist in neglecting their applied. in pursuing disorderly courses, or in exerting an evil influence. Natural & not be permitted to remain in connection with the College. hurried in.

EXPENSES.

well qualified the Academy is \$10.00 for the first term, and \$7.00 for additional continuing terms. In the College, \$12.00 for the first term,

and \$9.00 for each of the remaining terms. A matriculation fee of \$5.00 is required of all students entering the College proper, the payment of which entitles them to receive, on their completion of the College Course, a diploma without the usual graduating fee. For instruction in French or German (extra) \$6.00 for first term, and \$5.00 for each of the other two. In Instrumental Music (Piano, Violin, Guitar, &c.,) \$10.00 for a course of twenty lessons, and \$2.00 per term for use of Piano. To classes of twenty-five or more instruction in Vocal Music will be given at \$2.00 per pupil for a course of twenty lessons. There is also a charge of \$2.00 per session for incidental expenses. Soldiers and soldiers' children, UNABLE TO PAY, are admitted without charge to all the privileges of the College. Boarding in private families, including lodging and fuel, has, during the past year ranged from \$4.00 to \$5.00 per week. Some students board themselves at less than \$2.00 per week. The payment of all College dues is required in advance.

EXAMINATIONS.

A committee appointed by the Board of Trustees, and the Professor in charge of the department, examine each class in each book or subject when completed. These examinations must be, at least in part, in writing, and it is intended that they shall be thorough and complete.

SESSIONS AND VACATIONS.

The present College year will close on Commencement Day—Thursday, June 25th. The first session of the twelfth College year will open on Tuesday, September 1st, and close on Friday, December 18th. The second session will open on Monday, January 4th, and close on Friday, March 26th. The third session will open on Monday, April 5th, and close on Thursday, June 24th. The Summer Vacation will continue about two months, the Winter about two weeks, and the Spring about one week.

SCHOLARSHIPS.

Students applying for admission on hired scholarships, must present a certificate from the owner thereof, authorizing them to use the same. Such certificate should specify particularly the time for which the scholarship has been transferred. **NO SCHOLARSHIP IS AVAILABLE TIL THE INTEREST IS PAID.**

The new College building is eighty feet long and fifty feet contains eighteen rooms suited to College purposes. It will date a large number of students.

Monmouth is a young and rapidly growing city of about inhabitants, situated on a fine rolling prairie on the line of Burlington and Quincy Railroad. It is easy of access from. It contains flourishing churches of various Evangelical nations.
